

AIR FORCE NATIONALS INSPECTION QUESTIONS

To ensure the Unit Inspection competition verbal interaction stays relevant to the JROTC cadet, the SNI-hosted Air Force National Drill Championships will now maintain a sourced group of questions the judges will be prescribed to use. These questions will have relevance largely from AF classroom instruction materials, as well as a few other tightly defined areas. The ACTUAL questions will not be provided to any schools or other individuals in advance. Therefore, cadets will not be given a list of questions to memorize but rather broad topic areas that cadets in a quality citizenship program should be well versed within.

THE TOPICAL AREAS IN USE FOR THE AIR FORCE NATIONALS INSPECTION WILL BE:

- History of Air Force JROTC / JROTC in general and the Air Force in general
- Correct Wear & Knowledge of your Uniform
- Paygrades for your service / Rank Structure
- Ethical Questions / Thought Provoking questions
(cadets will be scored on the completeness of their thoughts and how they back up their answer)
- General First Aid
- USA Foundations - General Civics/Constitution/General Government/Bill of Rights
(basically ANYTHING in LE100 - Chapter 5 of classroom instruction and any additional items relevant to being a good citizen)
- Topical Current Events (last 30 days roughly)
