

National High School Drill Team Championships MAIN LEVEL - DRILL AREA SCHEMATICS UPDATED FOR 2012

The Exhibit Booths are shown in blue in the Main Concourse. This will ensure maximum traffic throughout all three days. This concourse serves as the main artery where all attendees will travel to move between drill areas, practice areas, team pictures, and meeting rooms. There will be approx 20' of space between booths on opposite sides of the hallway.

HIGHLIGHTS OF THE DAY: A broad mix of events give every attendee something to enjoy! Regulation Drill & Color Guard are found in multiple areas, along with the Unarmored Dual Exhibition event. The afternoon brings the ISIS World Championships Solo & Dual events and the Alternative Arms units competing in all five team events!
